Max Compact Interior Plus

The best laminate for superior interior finishes

Max Compact IP are high pressure laminates (HPL) manufactured to standard EN 438-4 Type CGS for demanding applications (e. g. office furniture, wall cladding, wet rooms, etc.) with a double-hardened, pore-free surface sealed with urethane acrylate for applications in heavily frequented areas with higher cleaning or hygiene requirements, such as in hospitals, schools, kindergartens, sanitary rooms in hotels and in public areas or buildings with occasionally increased risk of infection (airports, train stations), industrial kitchens and public transport.

Even especially at largely frequented rooms the Max Compact Laminates pays off. Because pollution and graffiti are removed free of residues. Test series approve: Max Compact Interior Plus has excellent disinfecting and hygienic properties. Even aggressive cleaners are unable to harm it. Due to the double hardened closed surface of Interior Plus, it shows a stand alone resistance against environmental influence.

DISINFECTANT PROPERTIES

Due to its outstandingly surface Max Compact Panels Interior Plus are easy to clean and easy to disinfect also, like e.g. stainless steel or operating room tiles.

CLEANING

Max Compact panels not only score with their decorative properties. Reduced cleaning expenses help saving costs and Max Compact panels look brand-new again even after heavy contamination.

PHYSICAL DATA	TEST METHOD	ACTUAL VALUE
Density	EN 438	≥ 1,35 g/cm³
OPTICAL PROPERTIES	TEST METHOD	ACTUAL VALUE
Light-fastness (Greyscale)	EN 438	≥ 4
Water vapour diffusion resistance	EN 438	≥ 4
MECHANICAL PROPERTIES	TEST METHOD	ACTUAL VALUE
Flexural strength	EN 438	≥ 80 MPa
Modulus of elasticity	EN 438	≥ 9000 MPa
Fire behaviour	EN 13501-1	D-s2, d0; on request in F-Quality B-s2, d0
Scratch resistance		degree ≥ 3 ≥ 4 N
Chemical resistance		not depending on colour (24h Test) All solvents Hydrochloric acid 10% Phosphoric acid 10% Acetic 10% Sodium hypochlorite 13% Soda lye 25% Ammonia 25%

APPLICATIONS

- hospitals, nursing homes
- areas with high hygienic demands
- school buildings, kindergarten
- public swimming baths, sauna
- sanitary rooms in hotels and in the public
- buildings with occasionally higher infection risk (airports, railway stations)
- canteen kitchens, foodstuff industry
- public traffic

ADVANTAGES OF INTERIOR PLUS

- dense surface
- easy to disinfect
- durable
- stable
- easy to clean
- easy to clean from limescale
- highly resistant
- many formats
- many decors

Practically all areas where aggressive or acid cleaners (eg. cleaning agents, descaler) are used often for cleaning and where a durable hygienic dense surface is required.

Max Compact IP - Range of decors

Pulsating colours, rough urbanity or impressive naturalness: thanks to its large decor variety the Max Compact IP range of decors opens up all possibilities.
